Multiple Choice Question

Learning Objective: 01-01 What Is Social Psychology?

3. Cinderella's Prince had trouble recognizing her in her home as opposed to the ballroom where they met. This observation reflects
- ☒ the power of the situation.

☐ the importance of cognition.

☐ the power of the person.

☐ common-sense psychology.

Accessibility: Keyboard Navigation
Bloom's: Understand

Multiple Choice Question

Learning Objective: 01-01 What Is Social Psychology?

4. Among other issues, social psychology is the scientific study of
- ☐ how people influence one another.

☐ how people change over time.

☒ all of the choices are correct.

☐ none of the choices are correct.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-01 What Is Social Psychology?

5. The first social psychology text was published
- ☐ in the early 1930s, when researchers examined the effects of deprivation on aggression and altruism.

☐ in World War I, when psychologists conducted studies of social conflict and cooperation.

☐ in World War II, when researchers performed studies of persuasion and soldier morale.

☒ in the early 1900s, shortly after social psychology experiments began to be conducted.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-01 What Is Social Psychology?

6. The first social psychology experiments were reported
- ☐ just two centuries ago.

☒ just a century ago.

☐ just 75 years ago.

☐ just after World War I.

Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-02 What Are The Major Themes Of Social Psychology?

13. Sociologists study the structure and function of

Select

☐ relationships.

☐ societies.

☒ groups.

☐ cultures.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-01 What Is Social Psychology?

14. Which of the following examples is a question that a social psychologist would most likely study?

Select

☐ How have divorce rates changed over time?

☐ What accounts for racial differences in intelligence?

☒ In deciding how they will vote in an election, are individuals more influenced by one persuasive medium than by another?

☐ In what ways do children learn differently than do adults?

Accessibility: Keyboard Navigation
Bloom's: Understand

Multiple Choice Question

Learning Objective: 01-01 What Is Social Psychology?

Select

15. In studying racial attitudes, a social psychologist would be most interested in understanding

- ☐ how individuals develop racial attitudes.
- ☐ how the attitudes of one class are different from those of another.
- ☐ the age difference in racial prejudice.
- ☐ the history of racial prejudice.

Accessibility: Keyboard Navigation

Multiple Choice Question

Learning Objective: 01-04 Is Social Psychology Merely Common Sense?

45. A closely watched game between the Wolverines and the Eagles goes into overtime, and ultimately the Eagles win by just one point. According to research on the hindsight bias, fans of _____ will probably say _____.

Select

- ☐ the Wolverines; the Eagles' victory was a surprise.
- ☐ the Eagles; the Eagles' victory was a surprise.
- ☐ both teams; they thought the Eagles would win.
- ☐ both teams; they thought the Wolverines would win.

Accessibility: Keyboard Navigation
Bloom's: Understand

Multiple Choice Question

Learning Objective: 01-04 Is Social Psychology Merely Common Sense?

46. Hindsight bias can explain why

Select

- ☐ you really passed an exam when you thought had failed it.
- ☐ you knew the course material as the exam was being taken up in class.
- ☐ you remembered the course material better after you had written the exam.
- ☐ you only remembered the course material until you wrote the exam, then promptly forgot most of it.

Accessibility: Keyboard Navigation
Bloom's: Understand

Multiple Choice Question

Learning Objective: 01-04 Is Social Psychology Merely Common Sense?

47. The hindsight bias affects the way we view decision makers, making us more likely to

Select

- ☐ see their decisions as surprisingly insightful and correct.
- ☐ blame them for making obviously bad choices.
- ☐ forgive them for making understandable mistakes in crises.
- ☐ admire them for handling well those choices we ourselves cannot make.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-04 Is Social Psychology Merely Common Sense?

48. The hindsight bias often makes people

Select

- ☐ underestimate their intellectual powers.
- ☐ overconfident about the validity of their judgments and predictions.
- ☐ feel surprised when research confirms common sense.
- ☐ more likely to excuse others for their bad decisions.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-04 Is Social Psychology Merely Common Sense?

49. Proverbs such as "absence makes the heart grow fonder" or "out of sight, out of mind" best illustrate that

Select

- ☐ social psychology is all just common sense.
- ☐ individuals engage in the naturalistic fallacy and only see what fits with their ideas.
- ☐ experiments often generate contradictory results that are difficult to explain.
- ☐ the hindsight bias is used to make almost any result seem to make sense.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-04 Is Social Psychology Merely Common Sense?

50. An integrated set of principles that explain and predict observed events is called

Select

- ☐ a test.
- ☐ a hypothesis.
- ☐ a proof.
- ☐ a theory.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-05 Research Methods: How Do We Do Social Psychology?

51. A good theory will make clear predictions that

Select

- ☐ confirm or modify the theory.
- ☐ generate new exploration.
- ☐ suggest practical application.
- ☐ all of the choices are correct.

Accessibility: Keyboard Navigation
Bloom's: Remember

Multiple Choice Question

Learning Objective: 01-05 Research Methods: How Do We Do Social Psychology?

52. Hypothesis is to theory, as _____ is to _____.

Select

- ☐ exam; knowledge
- ☐ car; driver

- ☐ control; variable
- ☐ science; research

Accessibility: Keyboard Navigation
Bloom's: Understand

Multiple Choice Question Learning Objective: 01-05 Research Methods: How Do We Do Social Psychology?

53. A research hypothesis is a
- ☐ theory.
 - ☐ testable prediction.
 - ☐ collection of empirical observations.
 - ☐ technique for analyzing data.

Select
